

# Green Design and Feng Shui Seminar

Whether you're a Designer, a Feng Shui Consultant or a conscious consumer, come learn about what it is to have a green home and find out about all of the innovative green products that are available to you. Become an expert in what's new and green and become the **green resource professional** in your world!

## **In this seminar you will learn to:**

- Identify health issues in the home. Find the hidden toxic substances that may be making you, your family or your clients sick.
- Live consciously. Become educated about what it means to be "green".
- Create an energy efficient home, save resources and save money.
- Identify innovative, green product alternatives for the home.
- Determine how to tell whether a product is truly green or "green washed"
- Understand "sustainability" and how to incorporate it into your life.
- Identify "triple green" products and resources.
- Learn about the innovative green interior design materials such as green paints, countertops, flooring more.

## **Presenters:**

**Diana Zamudio** Eco6 Design and Certified Green Building Professional

**Erica Sofrina** Certified Feng Shui Consultant &
